“Our 12 Traditions presentation is called
“The Language of the Heart”.

We know that THE 12 Steps are referred to “How it Works”, but we refer to our 12 Traditions as “Why it Works”!

This multimedia presentation explains the history of these spiritual principles of our second legacy called Unity. The 12 Traditions not only link our past to our present, but they are also the bridge to our future.

The collective experience of the movement and our early groups come alive not only for personal recovery but a blueprint for group unity.

“The Language of the Heart” preserves our past, helps us understand the present and predicts our future.

“The Language of the Heart” make clear the 3 pertinent ideas of our Traditions:”
